Granted, its amazing, but this guy has a special gift.

Check THIS out! www.gaiaguys.net/pa2000.pdf Science PROVES that almost everybody can predict the future!

You might refer people to this paper, when they tell you nobody can know what's going to happen.

And I think that if the Skeptiks had been at all serious, they would be prepared to answer my email. www.gaiaguys.net/skeptiks.email5.3.04.htm They can't handle the Disclosure Project, it seems.

But this is science, not their religion.

Cheers!
