Subject: Art Bell show

Hi Everyone,

I just got a call from Art Bell and he wants me to do the entire show this Sunday night, 10:00 PM until 2:00 AM PST (4 hours). I'm going to have a lot to say about the failure of the skeptics to duplicate, or disprove, Meier's evidence, the new proof that meets both a *legal and scientific* standard, what the Plejaren have to say about our future survival...and a whole lot more!

And for those of you who want to see the correspondence between me and the skeptics please give me a little time to put it together after the show or see it at their site!

All the best,

MH
