Subject: Re: Billy Meier

Rand, huh, Bozo?

I think you mean Randi. (Where does he find you guys?)

You're not employed at ANY of the Rand facilities (call them yourself and make sure). So much for your, and Randi's, credibility.

Now see how many of you can get in that little car and go do the show!

MH

I was reading your pages on Billy Meier and was compelled to repond.

You are a complete idiot aren't you? All us scientists at Rand think so. Including a few metallurgists in our circle that study this clap trap a lot deeper than you will ever dream of. We here have forgotten more than you will ever know about UFOs and their relationship to reality, and you publish???
You must have some really low swinging donkey balls to know so little and say so much. Either that, or you really don't care how absolutely stupid you look.
