Subject: **Couldn't Have Been a Safer Bet**

Well, gosh everybody, it's (almost) April 16th and my predictions have been, predictably, fulfilled.

What more needs to be said? No surprises here when you deal with these kinds of poseurs. It is exactly as **I PREDICTED** it would be. If this doesn't qualify for Randi's \$1,000,000, what could?

To refresh your memories I'm posting them again below:

- "**1. I PREDICT** that CFI-West will not submit their photographs, that attempt to duplicate Mr. Billy Meier's UFO photos, to the same known, specified, rigorous, scientific standards and protocols Mr. Meier's were.
- 2. I PREDICT** that James Randi will not demand that CFI-West have their pictures thusly tested in order to fulfill the challenge that CFI-West accepted (February 2001), i.e. to duplicate Mr. Meier's "easily duplicated hoaxes", as any objective, principled scientist would emphatically demand.
- 3. I PREDICT** that James Randi and CFI-West will continue to attempt to shift the focus of the original challenge away from CFI-West's failure to meet the challenge.
- 4. I PREDICT** that these predictions will be fulfilled up to and including April 15, 2004, a very taxing day in itself."
