Subject: Radio debate

Michael Shermer,

I've got a great idea! Let's arrange an appearance on Dennis Prager's show. You would present your and CFI-West's photos and arguments and I would represent the Meier material. Neither one of us agree with his belief system, he's partial to your view on UFOs and ETs and we could give him and his listeners a very spirited debate. Plus, he's a photography fan and it would add to the interest on his part.

I've already done Michael Medved's show (see below) and he was uncharacteristically tongue-tied, Prager would be better.

What do you say?

MH
www.theyfly.com

"... Look, I'm intrigued by this because, again, some seemingly very bright people seem to believe this. Michael, I appreciate your spirit of openness and sharing all of this with us and your willingness to bring us all up to date on the Billy Meier controversy involving flying saucers and extraterrestrials."
