Subject: Thanks

Hi Derek,

I think that I forgot to thank you for contacting Uncharted Territory and getting that great evaluation of the Meier film circling the tree. And thanks for enlarging the photo of Meier, standing motionlessly under Quetzal's ship, holding the microphone (also motionlessly, of course).

Of course I do appreciate the opportunity to have been in touch with the GC form OSU, as it gave him the chance to wish me good luck with my project.

Yes indeed. And while we contemplate all that you've done on behalf of getting the truth about the Meier case out to the world, we most excitedly await seeing your next attempt, which will of course require that you actually and factually contradict the good people at UC, Wally Gentleman before him and, hey, how's about that 5,100 year-old frozen stiff who really seems to have, er, iced your arguments?

Before I forget, it appears that you've got a bit of a Masochistic streak, posting all the stuff that refutes your arguments, but...to each his own.

MH
