Hey there, Derek, you lucky guy!

Your new, but stunningly classic Maus-up will be featured in FOUR new LIVE presentations (two in L.A.!) with equally well promoted, honorable mention awards going to Dr. Phil for his own "I wanna hold it in my hands" and other nonsense about real "UFO evidence" which, I have a feeling, may ultimately give you a run for your money.

And I'll even make some time for YOU to explain all of your screw ups...IN PERSON!

Stay tuned...!
